100% of students are employed, in further education or have progressed to higher education within 6 months of graduation

100% of students are employed, in further education or have progressed to higher education within 6 months of graduation (2022/23)

BSc (Hons) Business Management

1. The first part of the course is a foundation year, which provides a broad-based introduction to business and management. This includes modules in business law, business communication, business mathematics, and business studies.

2. The second part of the course is a three-year honours programme. This includes modules in business strategy, business operations, business finance, and business law. The final year of the programme includes a dissertation, which allows students to explore a specific area of business management in depth.

3. The course is accredited by the Association of MBAs (AMBA) and the Association of Business Schools (ABS). This accreditation ensures that the course meets the highest standards of quality and is recognized by employers.

BSc (Hons) Computing

1. The first part of the course is a foundation year, which provides a broad-based introduction to computing and business. This includes modules in business law, business communication, business mathematics, and business studies.

Foundation Year
